A course that focuses on work efficiency, communication skills, self-reflection, and collaboration  
2018 **BROK**  
Basic course on Regulations and Organisation for clinical investigators  
2011 English proficiency

## Secondary activities (selection)

2016 - 2018 Representative group 190 of Medicine  
Each month, for the duration of my Masters' programme, I evaluate the education programme with the official representative organisation of all medical master students.  
2012 - 2013 Member of the science day committee  
Two years in a row, I helped to set up lectures and workshops for the science day for student of the faculty of Medical Sciences, I joined brainstorm sessions on the content of the workshops and guided the students during the day.  
2012 - 2013 Member of the NSC Tower Running committee  
The first year I helped organizing this tower running competition that takes place in the Erasmus building in Nijmegen. The second year I was chair of this committee.  
2012 Student member of the bachelor biomedical sciences congress committee  
In this committee, I helped to set up lectures and poster presentations for this congress organized for and by biomedical sciences' student.

## Hobbies & Sports

---

Embroidery	In Nepal, I made a picture which a transcribed into a embroidery pattern existing of 154,860 stitches.
Cooking	Together with my boyfriend, I like to cook for family and friends. We make bonbons and entremets, but also appetisers and main courses.
Traveling	After high school, I started traveling around the world. I have been in South Africa, Canada, New Zealand, Morocco, Nepal, Ecuador, and the United States. Who knows, maybe Antarctica will be my next destination, so that I can check off my bucket list for visiting all continents?
Sports	Running or fitness
